

SILENT WAKE - CO

Role Sheet

February 2026

NAVAL
GROUP

1 Mission

Deliver mission effectiveness under degraded conditions. You do not need perfect information to decide, but you must make decisions on time.

2 Responsibilities

- Make the final call each turn: choose **1 or 2 Blue actions** after hearing recommendations.
- Normal rule: if you choose 2 actions, they must be different. Exception: SWB07 and SWB08 may be repeated in the same turn only if each play targets a different declared component. SWB08 requires SWB07 to have been played on the same component in a previous turn.
- Balance mission progress, survivability, and escalation risk.
- Set the team communication standard: short, structured, decision-oriented.

3 Authority and Limits

- You have final authority on maneuver, posture, and action selection.

4 What You Must Ask Each Turn

For each option, require a 15-second answer:

- “Recommendation” (what to do)
- “Expected effect” (what improves)
- “Tradeoff” (what you lose)
- “Time” (ETBOL / how many turns)

5 Pedagogical Note

The best CO in Silent Wake is not the one who avoids mistakes, but the one who makes timely, proportionate decisions under uncertainty and keeps the team aligned.
