TIMETABLE

10h00 – 13h15 Part B: Cyber Security Wargame

- 10h00 – 10h30 (30') : Exercise briefing - Presentation of the wargame to the HNA cadets
- 10h30 – 10h45 (15') : Coffee Break
- 10h45 – 12h45 (120') : Wargame execution
(Split into 5 groups. Guidance by NG expert and HN expert)
- 12h45 – 13h15 (30') : Hot wash-up (internal debrief per group)
- 13h15 – 14h00 (45') : Lunch

14h00 – 16h00 Part C: Global debrief

- 14h00 – 14h45 (45') : Preparation of global debrief.
- 14H45 – 15h15 (30') : Lightning Team Report (5 minutes per group)
- 15h15 – 15h45 (30') : Instructor's debrief
- 15h45 - 16h00 (15') : Key Messages & Closing Remarks

FRAMING

- Objective of the exercise
 - Learn to fight effectively while under cyber influence

- Exercise Focus
 - Decision rationale
 - Communication under pressure
 - Trade-offs

FRAMING

- Why facilitator-controlled, turn-based tabletop exercise with injects
 - Optimised for command decision-making (*not technical “cyber play”*)
 - Enables disciplined decisions under uncertainty and time pressure
 - Controlled escalation aligned to learning objectives
 - Consistent, comparable learning across teams (*no competitive scoring*)
 - Supports active participation, not passive listening

FRAMING

➤ Real-life Exercise flow

- Pre-mission
 - Context information
 - Mission briefing to the Commanding Officer (CO)
- Exercise
 - Realistic scenario
 - Multi-domain incidents/injects
 - Variable decision timing to simulate stress under operations and penalise/reward decisions
- Hot-wash-up debrief (*discuss while “fresh”*)
- After Action Exercise debrief to optimise training outcome

WHAT “SILENT WAKE” IS

- Multi-Domain Table-top Naval Exercise
- Setup:
 - Facilitator: WHITE/RED TEAM
 - Players: BLUE TEAM (Ship crew)
- Security/Sensitivity
 - Fictional scenario
 - Unclassified
 - No real vulnerabilities/system details
 - No real-world adversary modelling

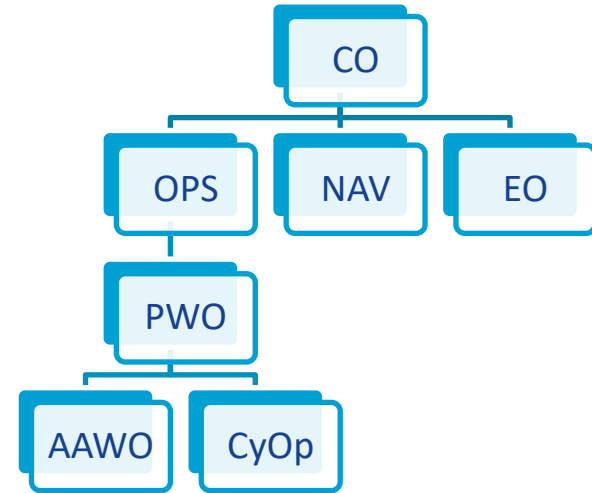

WHAT “SILENT WAKE” IS NOT !!!

Cyber exercise **ONLY !!!**

- Not all events are cyber-related
- Don't jump to early conclusions
- !!! Penalty !!! if wrong event is treated as cyber

WARGAME ROLES

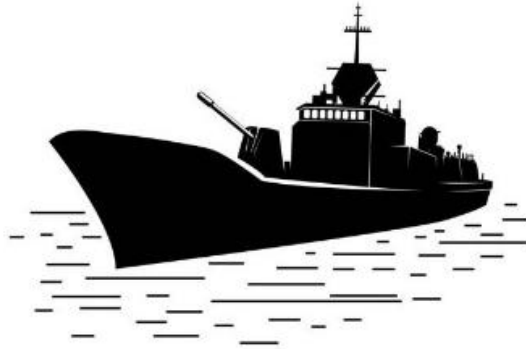

- Commanding Officer (CO)
- Operations Officer (OPS)
- Principal Warfare Officer (PWO)
- Anti-Air Warfare Officer (AAWO)
- Cyber Operator (CyOp)
- Navigator (NAV)
- Engineering Officer (EO)

WARGAME EXECUTION TIMETABLE

- 10h45 – 12h45 (120'): Wargame execution
 - Tutorial Scenario: 3-turn tutorial (play-flow familiarization)
 - “Silent Wake” Scenario
 - Preparation phase (pre-mission briefing) – Turn 0
 - Execution phase

WARGAME COMPONENTS

SILENT WAKE

- Consists of:
- Game Board
 - Briefing cards
 - Blue cards
 - Inject Cards

System/Role

BLUE CARDS PLAY RULES / EXAMPLES

BLUE CARDS PLAY RULES / EXAMPLES

 **Damage Control Focus**

**Improves one
weapon by 1 level
(Disabled ->
Degraded or
Degraded -> OK)**

PWO **SWB18**
• **WPN**

 **Repair Component**

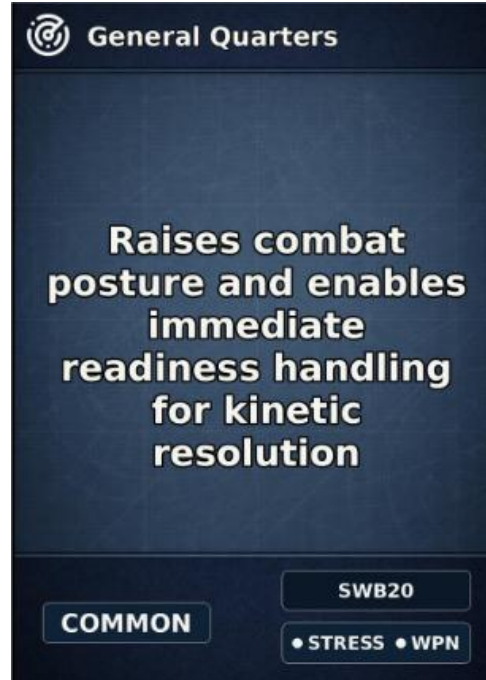

**Restores the
declared faulty
component and
clears one related
malfunction
condition on
success**

EO **SWB15**
• **SENS** • **FIRE** • **AAW**

BLUE CARDS PLAY RULES / EXAMPLES

Start Investigation	Start In-Depth Investigation
Reveals clues and / or stabilizes one investigated component by facilitator adjudication	Facilitator reveals deeper origin / target / propagation details for the declared component(s)
COMMON SWB07 • SENS	COMMON SWB08 • NAV • SENS • FIRE

BLUE CARDS PLAY RULES / EXAMPLES

HOT WASH-UP (30')

- What happened? (brief recap)
- Key decisions taken
- Assumptions made
- What worked / what did not
- What could have been done differently

TEAM LIGHTNING REPORT (5')

- Situation Assessment
- Key Decision Points
- Primary Lesson Learned

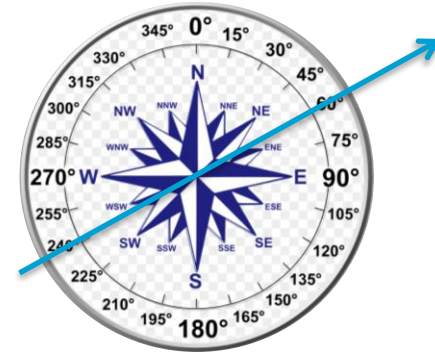

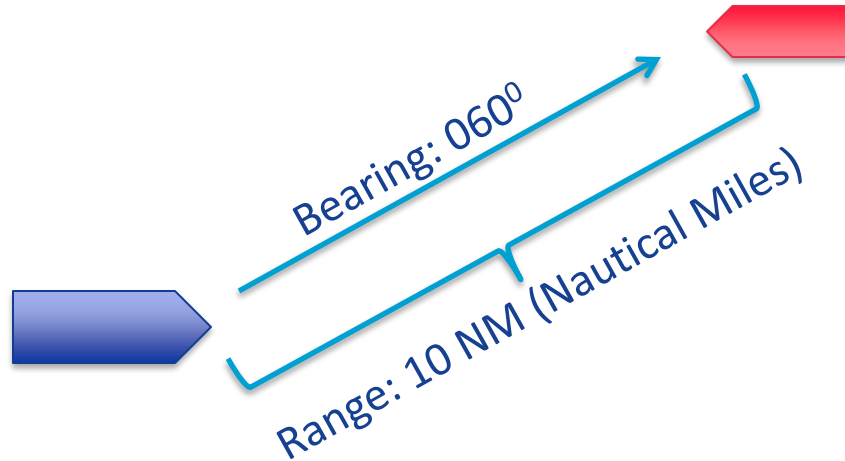

Focus on **decision rationale, command thinking, risk posture**

! No retelling of scenario events.

GR PIR EG ALY

ATD: 2026-03-10 09:26 Reported ETA: 2026-03-12 00:00 ⓘ

[Past track](#) [Route forecast](#)

Navigational status: Underway Using Engine	Speed/ Course: 2.4kn / 106°	Draught: 12.9m
--	-----------------------------------	-------------------

Received: 27 minutes ago (AIS source:
Terrestrial)

BACKGROUND

➤ IBMS

All components/devices related to the navigation of the ship
(e.g. GPS, AIS, WECDIS)

➤ INS

- Gathers information related to Speed and Course of the Ship
- Sources: GPS, Speed log, Compasses etc.
- Output: Speed and Course to all systems

➤ WECDIS (aka ECDIS)

Console displaying the charts, radar video and AIS to support navigation

BACKGROUND

➤ CIWS

Last line of defence against missiles

➤ DECOY

Deceptive measure aiming to misguide incoming missiles - Defence

➤ ESM

Passively captures electromagnetic emission – Can detect radar signals identifying where it comes from (bearing) and type

BACKGROUND

➤ MTC

- Maritime Tactical Center
- Supports/Monitors all Naval Operations
- MTC <--> Ship connectivity (computer network) via SAT COMMS
- Command & Control (C2) exchange tactical information

➤ SITREP (SITuational REPort)

- Purpose: Regain situational awareness
- Can be invoked by the CO or the Facilitator (if needed)
- Everyone reports to the CO the important info
- Short

BACKGROUND

➤ ETBOL

- Estimated Time Back On-Line
- How much time to repair a component

➤ ETA

Estimated Time of Arrival (in the area or in a place)

Q&A
